Keywords: File Formats in Television Production

EBU STATEMENT D95

On the implementation and use of the Material Exchange Format (MXF)

The European Broadcasting Union (EBU) and its members have been very active in the development and standardisation of the MXF file format and wish to state the following:

The EBU encourages manufacturers to offer standard [1] implementations of the MXF file format as part of their product range.

The EBU endorses the use of the Material Exchange Format in file based TV programme production and related applications.
